Introduction to **SeaLegal**

SeaLegal is a specialized solution for **managing and controlling potential infraction events**, designed to prepare your company to **respond effectively to official notifications from the Brazilian government**. These notifications often result from incorrect, inconsistent, or delayed entries in government systems.

**With SeaLegal, your company ensures
complete management and control
of improper entries in the
Federal Revenue systems**

How does it work?

SeaLegal integrates with government systems to capture near real-time data on **calls, manifests, and Cargo Entries (CEs)**. Based on **IN800**, it automatically identifies non-compliance issues. When an irregularity is detected, SeaLegal generates a **"Potential Infraction Event"** and initiates a workflow to identify the responsible party and obtain legal approval.

SeaLegal immediately identifies

- 🚨 Delayed manifest linkage to call
- 🚨 Delayed cargo manifest
- 🚨 Delayed call opening

Other types of infractions can be added according to business needs, offering flexibility in compliance management.

Subject: how meeting today

Hi,

Today we will have

**Streamline the future
of your legal department today**

Process of managing an Infraction event

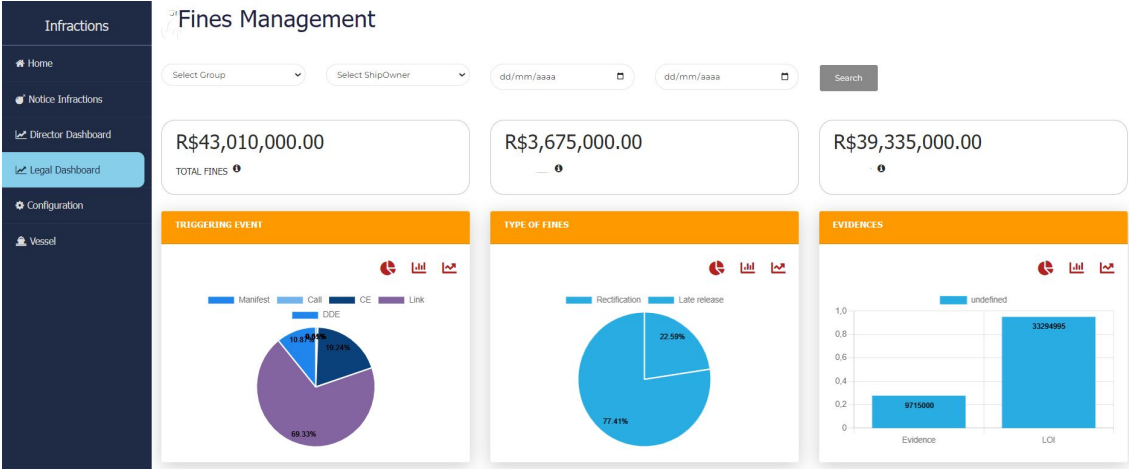

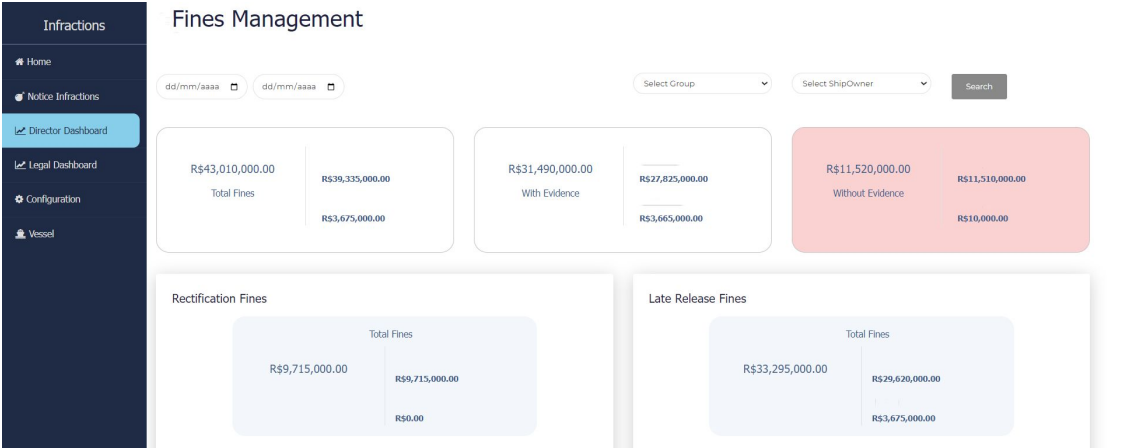

-  **New Infraction Event**
-  **Offender identification**
Immediate registration of offenders with relevant evidence, such as screenshots and LOIs.
-  **Approval Workflow**
Managers validate the evidence with the option of multi-level approval.
-  **Inconsistencies**
Events can be sent back to operators for adjustments or additional information.
-  **Process approved**
All evidence is organized and ready for any official notification.
-  **MONTHS OR YEARS LATER...**
-  **Notice Infractions Module**
Once an official infraction notice is issued, this module automatically links it to the original infraction event, ensuring a fast and accurate response from your legal department.

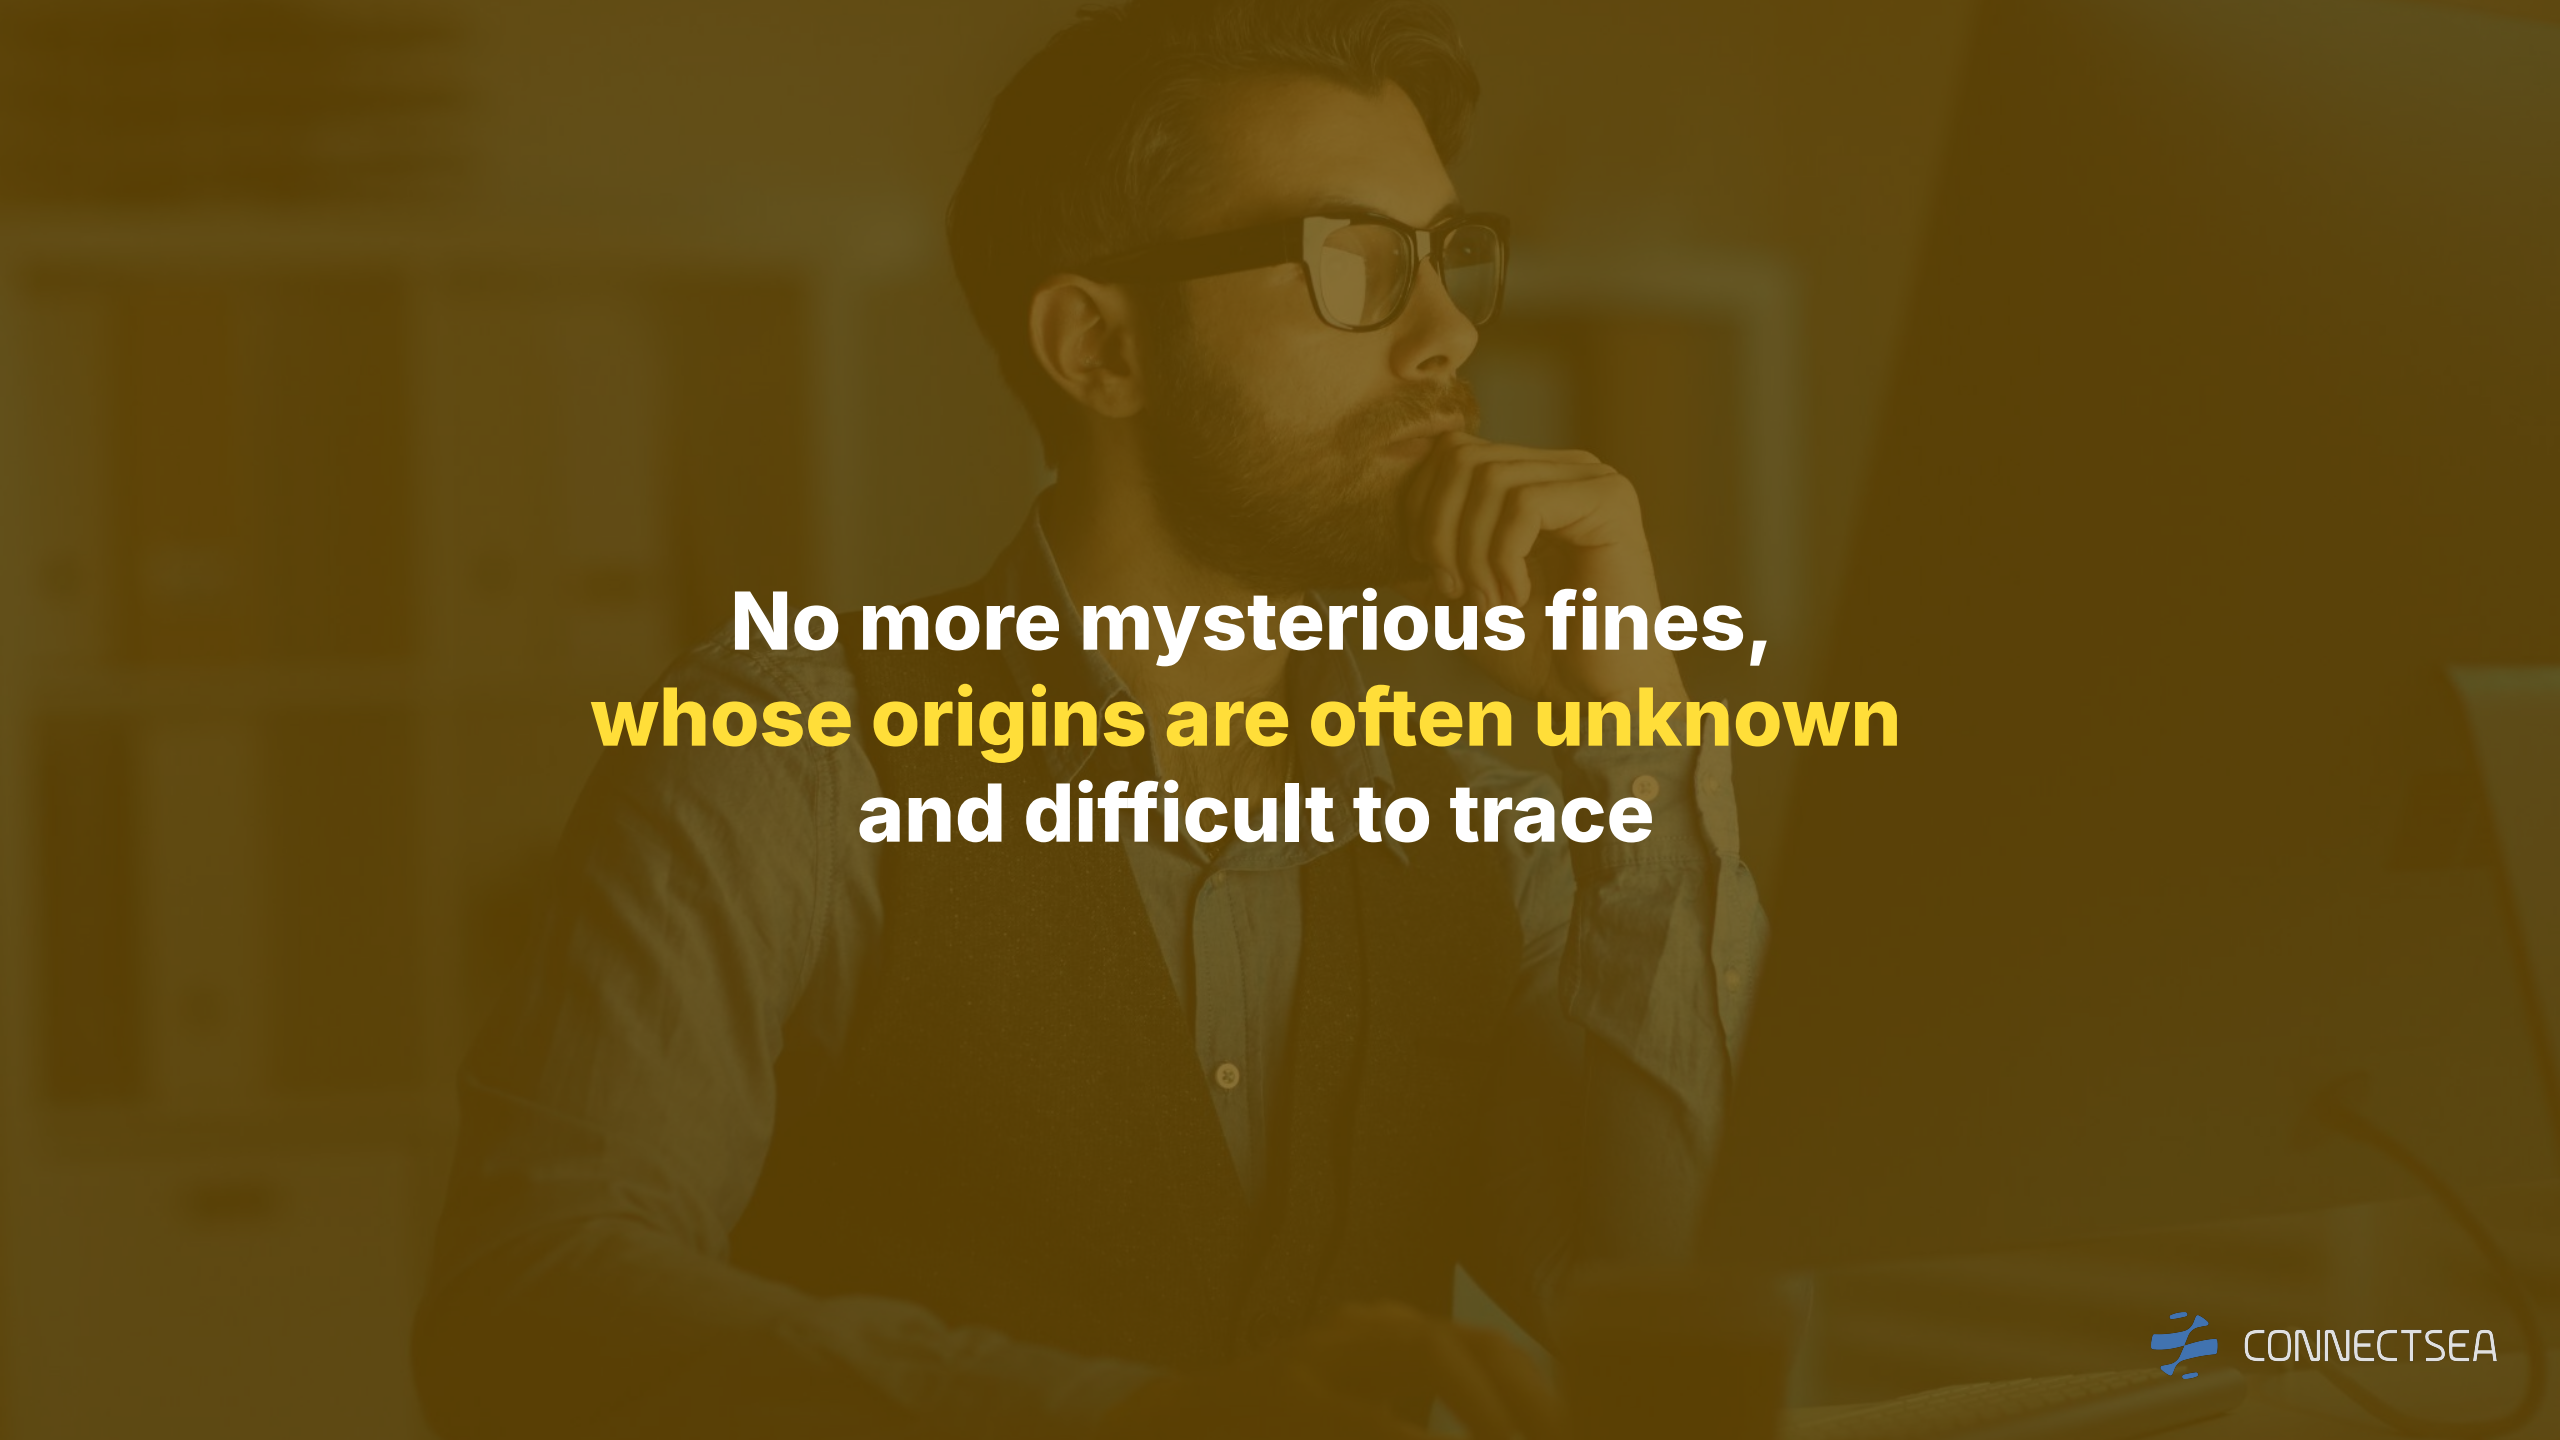

Interactive Dashboards

SeaLegal offers interactive dashboards providing a **consolidated view of all infraction events and outstanding tasks**. These dashboards ensure no infraction is overlooked, supporting your company's **compliance management and control**.
