

WebDAV

PRESENTATION

Introduction to **WebDA**

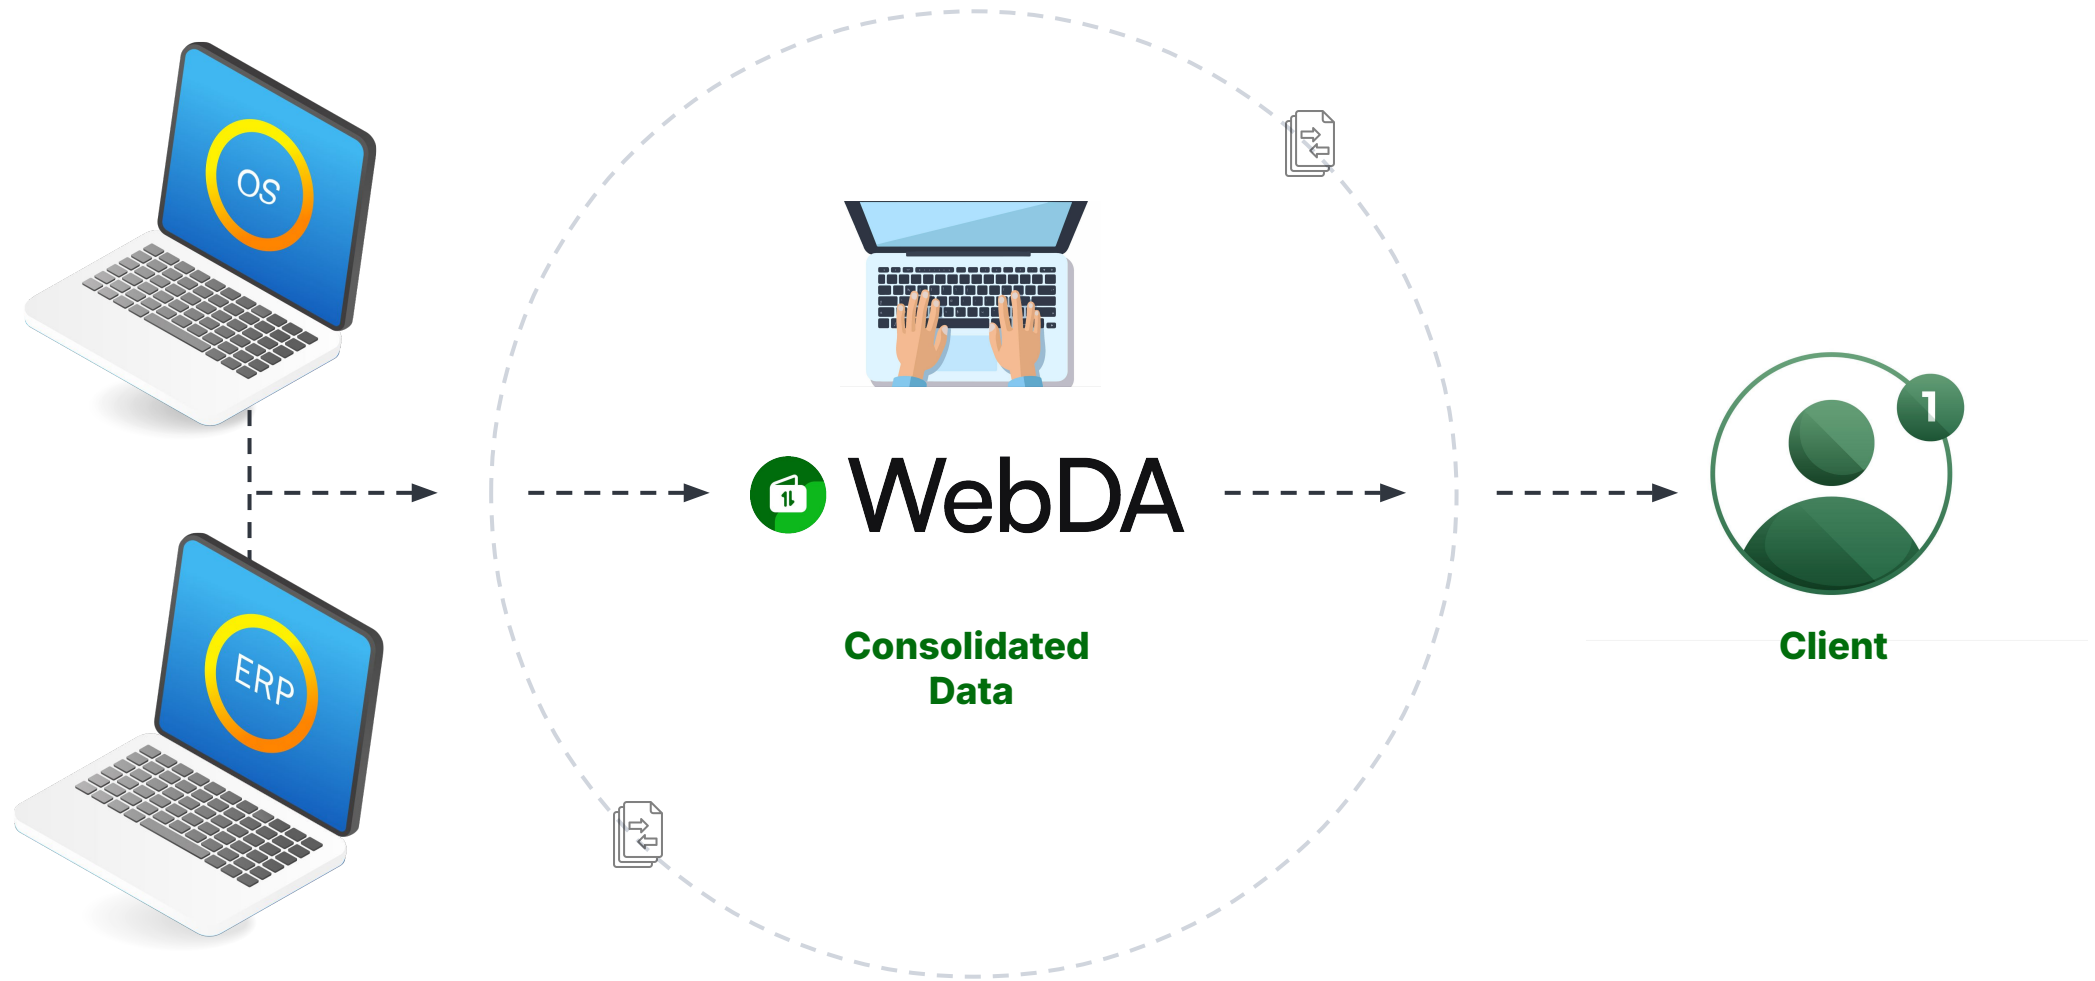

WebDA is the solution that simplifies operations disbursement process, offering **complete transparency in real-time** on all advances and expenses related to ship operations. It ensures **easy and detailed access** to all financial information and documents.

How does **It Work?**

Integrated with financial ERPs, the tool provides an organized view of financial inflows and outflows by period, call (PDA), or other filters, making it easy for you and your clients to quickly locate information.

Additionally, WebDA enables control over calls information, with data reading via integration from your operating systems. **With ConnectSea's CheckList solution, this integration is native!**

Main Features

Cash In n Out

Expenses and advances are easily accessible and downloadable, including batch downloads by scale, providing the transparency and agility your clients seek.

Advance filters

Find the information you're looking for quickly and easily.

Export interface

Data can be exported via Excel or APIs, simplifying integration with other systems.

Advance Features

Debit Note History

Quick access to all automatically issued invoices, with a **complete history of changes**.

Disbursement Report

With just one click, the system generates the call's Disbursement Report, **centralizing all cost-related information and documents** in a practical and intuitive way.

Automatic Alerts

Based on the status of calls, automatic alerts can be set up, including the option to send reports like the Disbursement Report.

WebDA

Benefits

-  **Transparency:** Real-time access for your clients.
-  **Organization:** Intuitive interface for searching and accessing all financial data and documents.
-  **Standardization:** APIs and Excel export that automate communication with your clients.
-  **System Integration:** APIs and Excel export that automate communication with your clients.

With WebDA,
the disbursement process
of your PDAs
has never been simpler!
